4 November 2024

I am Ropafadzo Doubt, a girl aged seventeen. We are a family of two and I am the first born. Did my primary school in Rusape and I used to stay with my paternal grandmother. My father is in prison (St Thomas). For me to finish my primary education, my mother was responsible for the payment of my fees but it was difficult for her because she was self-employed. My mother left me with my grandmother and she went to South Africa to look for a job. When I finished my grade seven my aunt decided to stay with me, she made an agreement with my mother that she would help with fees from form one to four while aunt while aunt would stay with me. However, my mother paid fees for only one term and there after she never communicated and never gave solid reasons. From thereafter she was never is available or visited and my Aunt spoke to my Uncle (my father's brother) to help with the fees and he agreed to pay only for the Ordinary Level and when I passed he could not afford my Advanced level fees. Since I wanted to continue my education I managed to get help from some family but they made it clear it was going to be for the first term only with the help of my aunt. Now the challenge is my Aunt cannot afford the fees now since she is not employed anymore. I am doing FRS, History and English Literature. I am eager to pursue my education, I surely believe in myself and I want to have a bright, better future. I would greatly appreciate your financial assistance.

Sincerely,

Ropafadzo Doubt
